Evento: Tony Kart Racing Team - WSK Super Master Series - rd 1 - Adria

RACING TEAM'S SEASONAL DEBUT IN ADRIA

From 1st to 4th of February our team will be engaged on the Adria Karting Raceway circuit, theater of the WSK Super Master Series' first round

The wait is over. Exactly 80 days after the last race, **our Racing Team returns to the track**, at the **Adria Karting Raceway**, the circuit seat of the last round of the WSK Final Cup 2017.

We start from the first round (out of four) of the WSK Super Master Series, a competition that sees on track the best actors of international karting engaged in **4 different categories: Mini, OKJ, OK and KZ2**.

The Racing Team will have drivers defending the green colour in each of these. Next to the confirmed one for 2018 **Matteo Viganò** (KZ2) and **David Vidales** (OK), we also will have **Rashid Al Dhaheri, Cui Yuanpu, Jimmy Helias** (Mini), **Simo Puhakka** (KZ2), **Noah Milell** (OK), **Sebastian Montoya** (OKJ), **Josep Maria Martì** (OKJ) and **Laurens Van Hoepen** (OKJ) making their debut "in green".

The start of the season for **Marco Ardigò** is instead postponed on the occasion of the next engagements, to allow him the total and optimal recovery from the last year injury. Nevertheless, the three-time world champion will be on track with the team as a coach driver.

Our "official drivers" also this year can take advantage of top-range chassis: the **Racer 401S** chassis as well as the **Neos**, for the Mini category. All, of course, powered by **Vortex**.

The entire weekend can be followed through the live timing service available on the www.wskarting.it website. On Sunday, always on the WSK Promotion website, it will be possible to see pre-finals and finals in live streaming.
