Evento: 2° rd WSK Super Master Series - Lonato

EVERYTHING READY FOR THE 2ND ROUND OF THE WSK SUPER MASTER SERIES

The Kosmic Racing Department will fight at the South Garda Karting track of Lonato, from March 1st to 4th, on the occasion of the second round (out of four) of the WSK series

The competitive engagements of the Kosmic Racing Department continue this weekend: the **South Garda Karting of Lonato**, in fact, will be still in the highlights of the international karting scene with the **second round of the WSK Super Master Series**.

A month after the first round, this event represents a new, important chance to put on track the practice so far accrued by the drivers of our racing department, which will have at their disposition the performing **Mercury S** chassis powered by the Vortex engines.

Axel Bengtsson and **Oliver Rasmussen** will have to deal with a very competitive **KZ2** that sees on track many of the most important international KZ drivers, the so-called "master class" of karting.

In the OK category, instead, **Roman Stanek** and **Viktor Gustafsson** are called to confirm and improve the already positive results gained on the occasion of the first round in Adria.

Also on track will be the two couple of drivers made up of **Rafael Camara** and **Hadrien David** in OKJ, while a new driver will be in the **60 Mini** category: it is the French Jules Caranta, who will wear for the first time the Kosmic Racing Department's colours.

The second round of the WSK Super Master Series can be followed through the live timing service starting from the free practice on Thursday, at www.wskarting.it. Moreover, the Prefinals and Finals of Sunday will be broadcast in **live streaming**, on the same website.

Timetable:

Thursday, 1st March: Free Practice;

Friday, 2nd March: Official Free Practice, Timing Practice, Eliminary Heats;

Saturday, 3rd March: Warm-up, Eliminary Heats;

Sunday, 4th March: Warm-up, Prefinals, Finals.
