Evento: SILVER MEDAL FOR PER DAVID VIDALES ON THE OCCASION OF THE EUROPEAN CHAMPIONSHIP FOR OK-OKJ IN ENGLAND

SILVER MEDAL FOR PER DAVID VIDALES ON THE OCCASION OF THE EUROPEAN CHAMPIONSHIP FOR OK-OKJ IN ENGLAND

On the PF International circuit, the Tony Kart Racing Team gained the podium in the OK final thanks to David Vidales

The second round of the **FIA Karting European Championship** reserved for the **single-speed OK and OKJ** categories, the **Kart Grand Prix - Great Britain**, ended at the best for the **Tony Kart Racing Team**, back on the podium at the English **PF International** circuit. **David Vidales**, was able to gain in the **OK final** a **second place** and the fastest lap of the race.

Vidales starts with the **thirteenth time in the qualifying heats**, and among other results, also wins **two placements on the podium** in the heat and **a victory** that finally puts him in **seventh place** for the final. David immediately enters the fight for the victory, also scoring the **fastest lap of the race (54"903)**. At the end, he finishes **under the chequered flag**, but the disqualification of a rival allows Vidales to climb on a further position in the **final ranking**.

His **second place** at the end of the weekend, then, is the right reward for the effort shown on the English track, which on the other hand, did not bring luck to his teammate **Noah Milell**. The Swede driver has some problems at the beginning of the weekend and tries to recover ground in the eliminatory heats, gaining, as best result, a third place that places him in **17th place for the OK final**. A collision immediately after the start, however, compromises his chances of doing well, consequently he loses positions in the general Championship Ranking.

Little luck also for our drivers in the **OKJ category**, where initially **Sebastian Montoya** became the standard bearer of our racing department winning a considerable **second place** and several placings in the **eliminatory heats**. A ten-second penalty for the detachment of the front fairing of his **Tony Kart 401S Racer** chassis, powered by **Vortex**, however, does not allow him to go beyond the **twenty-first position in the final**. Bad luck also for **Josep Maria Marti**, who after the third place in the eliminatory heats does is not able to do better than the **27th place** in the final race. Finally, an uphill weekend, for **Laurens Van Hoepen**, who does not know how to adapt to a technical and difficult track like the English one and, finally, does not allow him to succeed the eliminatory heats, remaining **excluded from the final**.

The next engagement of the **Tony Kart Racing Team** will be **June 14-17**, when the **third round** of the **CIK-FIA European Championship** will begin for the **OK and OKJ** single-speed categories at the **Ampfing** circuit in **Germany**.
