

# 24 HOURS KARTING OF ITALY: REGISTRATIONS OPENING IS DOING WELL

During the first useful days for registering for the **5<sup>th</sup> edition of the 24 Hours Karting of Italy**, that will take place **in Adria on the weekend of 11<sup>th</sup> and 12<sup>th</sup> June**, more than 10 teams have already formalized their attendance.

The event is **internationally renowned** and the first registered teams, coming **from 5 different countries**, confirm this prerogative. The organizing committee's goal is to reach an entry list with **40 teams** on the track, so as to confirm the placement of the event among the most important ones on the international scene with regard to **Endurance races** in the Rental Kart sector. The premises are all there and the interest in the event promoted by CRG is increasing.

It should be noted that **the first 20 teams registered will have the pre-emption to book a hotel room above the pit lane**, while as regards the service package included in the registration it is useful to underline that this is an event managed with an **"All Inclusive"** formula, therefore the

registration fee includes the rental of the Kart, the technical assistance, the box set up and all the track services.

Like in the previous editions there will be **two types of teams admitted: Silver and Pro**. The "Silver" teams will be composed of less experienced drivers and will have to respect the rule of a minimum of **35 driver changes**, while the "Pro" will be the ones with more experience and most competitive and will only have to make **30 changes**. Both categories will compete for the overall ranking and the Silver teams will also have their own reserved one, plus the podium for the top 3 teams at the finish.

The registration fee for the 2022 edition has been set at **Euro 2,600.00 + VAT**. For more information about the registering procedure and the services included, you can contact the Organizing Offices by sending an e-mail to: [marketing@kartcrg.com](mailto:marketing@kartcrg.com)
