

## Kartmesse 2023 cancelled – new start in 2024

Posted on 1. December 2022

The 29th edition of the international Kartmesse was to take place in Dortmund in a few weeks, but unfortunately the event has to take another break. A new start is planned for 2024, and there are already exhibitor commitments and reserved stand spaces.

“Of course it hits us that we have to take another break after 2021 and 2022. We have spoken to numerous exhibitors. They are very hesitant due to the current economic development and the associated cost development. As a result, we cannot offer a programme that does justice to the world’s largest Kartmesse,” explains Marcel Fuchsberger, head of the fair.

Despite this, Fuchsberger and his team are still planning ahead. In 2024, the Kartmesse will experience a new start from 13-14 January. “We are pleased that many exhibitors have already confirmed their participation for 2024 and reserved stand space. We are now building on this and are already in contact with the world of karting,” continues Fuchsberger.

The trade fair venue has already been fixed for 2024 as well. As already planned for next year, the Kartmesse will then take place for the first time in the spacious exhibition halls of the Westfalenhalle Dortmund. All information on the 29th International Kartmesse is available at [www.kartmesse.de](http://www.kartmesse.de).
