For all **Rental Kart enthusiasts** and the ones of **CRG Centurion** in particular, there is a date that must be saved in your agenda immediately: **Saturday 5th and Sunday 6th October**. This will be the weekend of the 2024 Rental Kart World Contest scheduled at the Cremona Circuit, in Italy. Over the years, this event has become a **point of reference at an international level** among Rental Kart fans, who can challenge themselves with the **Sprint format in two days of races** which will award the titles for the **Junior** category (young drivers between 14 and 17 years old), the **PRO** one (over 18 years) and the **Silver** class (more amateur drivers over 45 years old and/or weighing at least 85 kg).

Everyone can participate in this spectacular and prestigious meeting, but above all it is CRG's partner tracks that are called to take part in it with their customers. The great protagonist of the event will be **the fleet of over 40 Centurion Karts that CRG will make available to registered drivers**. CRG Centurion is one of the most popular rental karts on the market because it guarantees **high performance** and a **superior driving experience**. The Rental Kart World Contest will be a great opportunity to try CRG Rental Karts also for drivers who usually use different vehicles, but also for track managers interested in entering the CRG world. Nothing bet than seeing the product in action in its natural context: the track. In addition to obviously being able to drive it will be possible to listen to the feedback from the **over 200 participants at the event**.

The CRG Centurion karts used in Cremona **will be equipped with a 390cc Honda engine** and in the full optional version, with **adjustable seat and pedals**. It is worth saying that the format of the event includes **Free Practice, Qualifying Practice, Heats, Super Heat and Finals**, reflecting the program of the International meetings. The individual titles up for grabs will be assigned with the sum of the scores acquired in each individual race. At each entry onto the track, the drivers will draw the kart to use in the session or in the race, so as to balance the technical part 100%. Assistance for all drivers will be guaranteed by the **CRG technical staff**, a guarantee of professionalism.

For more information on the event you can visit the official CRG website in the World Contest section (www.kartcrg.com) or send an e-mail to the Organizational Secretariat: marketing@kartcrg.com
