PRESS RELEASE

A new prestigious trophy for the Pole Positions by WSK

Starting from the next round of the WSK Super Master Series at the Franciacorta Karting Track, a new and exclusive award will be given for the Pole Position in the WSK Promotion events.

Castrezzato, Franciacorta (ITA), 03.03.2025

A new prestigious Pole Position Trophy will enrich the awards of WSK events starting from the next appointment which will be valid as the fourth round of the WSK Super Master Series at the Franciacorta Karting Track on March 5-9, 2025. A new exclusive trophy will be awarded to the author of the Pole Position of each category.

This is a beautiful work created by the Italian company "LIBE Incisioni" which for some years now has embellished WSK races with its trophies. The new trophy "Pole Position Trophies by WSK" is a specially made trophy and represents a 3D Anodized Aluminum steering wheel, equipped with a hypothetical digital time viewer in Acrylic, on an important base in Aluminum and Acrylic where the reference category of the author of each Pole Position is impressed.

This is a splendid Trophy that completes the other characteristic and exclusive Trophies of WSK Promotion events, awards that are increasingly appreciated by all participants of WSK races.
