Evento: Europeo KZ e KZ2 – Lonato

## THE KOSMIC RACING DEPARTMENT AT LONATO FOR THE FINAL ACT OF THE KZ AND KZ2 EUROPEAN CHAMPIONSHIP

On next weekend, July 12th-15th the Kosmic Racing Department's drivers will run the last round of the European Championship for the KZ and KZ2 categories at the South Garda Karting track of Lonato

The spotlights are on again at the **South Garda Karting of Lonato**, which after the recent round of the **WSK Open Cup** is ready to start the next challenge of the 2018 international karting season. In fact, on the **weekend of 12th-15th July**, the Brescia track will host the last round of the **CIK FIA Karting European Championship** for the **KZ and KZ2 categories**, started in May with the first round on the French Salbris circuit, on which occasion the **Kosmic Racing Department** brought home good results in both classes.

In Lonato, the aim of all our drivers is to **improve what has been done so far**, to put on the trophy board a leading place: the first driver who will try to get involved immediately in the fight for the victory of the **KZ master class** will be the expert **Patrik Hajek**, which is currently fifth in the general ranking. The Czech driver is back from the tenth place gained in the final race of the last **WSK Open Cup**, where he showed a good potential during the whole weekend. Therefore, his purpose is to redo with the interests, bringing his **Kosmic Mercury S** chassis powered by **Vortex** immediately into the positions that count.

His teammates also share the same target, lining up in the starting grid of the KZ2 category, namely **Paul Evrard, Oliver Rasmussen** and **Axel Bengtsson**. All of them are ready to give their best on the **1.200 meters** of track at the **South Garda Karting of Lonato**, in what will be an excellent opportunity to get the best of the experience gained in this part of the current season.

The final act of the **CIK FIA Karting European Championship** for the **KZ and KZ2 categories** running on the **South Garda Karting** circuit of **Lonato**, will have the live timing service at <http://www.apex-timing.com/livetiming/cik-fia/index.html> since the free practices of Friday. The qualifying heats and the finals on Sunday will be broadcast live on the <http://www.cikfia.tv> website.
